Characteristics of the chosen place

Moon trine/sextile MC 16 km

This aspect is comparable to the effect of the Moon/IC line. In addition, these regions have a positive effect on your efforts to succeed, to gain fame and social recognition. You become more charismatic, warm-hearted and natural. A change in job or residence is well aspected in these regions.

The Moon/IC line leads to places where you can address your personal concerns and aspirations. You enjoy being out in nature, as well as being with your trusted friends. A comfortable ambience, or the peaceful surrounds of the countryside, can be the source of peace and relaxation. This time can be well spent for introspection, and to forget the woes of daily life.

These areas are well suited to attending therapy sessions or to any period of regeneration. There is hardly a better place to gain insight into the depth of your feelings and your soul. You can feel more in touch with your source and reconnect to the instinctual life.

Traditional values become important, and you are more in touch with the land and its people. People appreciate you and make you feel that you belong. Your need for emotional security is quite strong. You may compensate for this by acquiring property and goods.

The Moon/IC line is favourable for real estate transactions. There are lots of creative impulses for work on your home, and the search for a new home is also easier here.

Neptune/AS Line

More beneficial on the eastern side of the line.

Changes which you experience under the influence of this line, happen unobtrusively and almost unnoticeably. You feel relaxed and easy, and pleasantly removed from the ordinariness of everyday life. Encouraged by idealism, sympathy and the limitless belief in the power of good over evil, you are happy to entrust your life to a higher presence.

By trusting only your feelings and intuition, you are in danger of losing sight of reality. Contrasted against actual reality, your sensitivity is stretched. You then tend to escape by dreaming, bask in romance and prefer to see the world through rose-coloured glasses.

Surrounded by a secretive and mysterious aura, it is hard to get a hold of reality, and you become the perfect mirror for the projection of unquenched cravings and repressed emotions of others. You may be idealised by some of the people around you, but it is also possible that you are deceived.

You should pay special attention to false promises, secrets or shallow friends, otherwise partnerships end as

disappointments. These places are unsuitable for acquiring material possessions or speculating financially. On the other hand, creative pursuits, social services as well as becoming involved with transcendental, religious and spiritual subjects have a purpose.

Jupiter/AS Line

Without any doubt, this line is one of the best and most pleasant places to stay in terms of the global horoscope. You are self-confident, enjoy the trust and faith in others and appear happy and optimistically enthusiastic. You are surrounded by an aura of confidence, freedom and loyalty.

You are generous and open-minded towards others. Your opinion shows tolerance, insight and kindness. New mental flashes abound to broaden your horizon and instil a deeply religious and spiritual belief. Overseas connections are extremely positive, and when planning or undergoing long journeys, you gain from the cosmopolitan atmosphere of these regions.

You will certainly spend a happy and relaxing time at these places. You do need to be careful though that you don't succumb to all the culinary temptations, otherwise a considerable weight gain will hardly be avoidable!
